

# GROW Rural

## Become a billet family and showcase your South West Queensland community!

**GROW Rural South West Queensland is inviting families from St George to billet health students for one night.**

GROW Rural is a three-year program, which provides university medical, nursing, midwifery, dental and allied health students the annual opportunity to experience clinical practice and the unique lifestyle of remote and rural Queensland communities.

As part of the long weekend program, students will spend time in St George and Roma participating in community activities, meeting and learning from local health professionals, as well as exploring what your region has to offer.

**Can you be a billet family?  
Saturday, 12 October 2024**

**We are looking for families who are able to:**

- Accommodate two (or more, if possible) students for Saturday, 12 October 2024.
- Collect your assigned billets in St George on Saturday afternoon.
- Transport and join the students, as our guests, for dinner (at a venue yet to be confirmed).
- Transport your billets back to your home.
- Provide your billets with breakfast and drop them back in St George Sunday morning to a location (TBC).

**Billet families will receive \$50 per student to cover incidentals.**

GROW Rural South West Queensland is supported by Western Queensland PHN
